Bristol

Automatic Dish Detergent

Granular Formulation

Item #4801

PRODUCT DESCRIPTION

WHAT I AM

Bristol (previously Fifteen) is a premium chlorinated dish detergent granular powder in a capsule. It is formulated as a heavy duty combination of alkaline builders, organic chlorine-releasing compounds, polyphosphates and non-foaming detergents.

PRODUCT FEATURES

- A versatile product that cuts and removes dried-on foods, grease, oil and other food soils on glassware, china plastic, cutlery, and pots and pans. Do not use on aluminum, zinc and other soft metals.
- Generates no foam that can interfere with accuracy of dishwasher's operation.
- The chlorine released during the wash bleaches out stains from both china and plastic ware.
- Contains a special polymer that decreases precipitation and adherence of inorganic salts to glass surfaces thereby eliminating 'spotting' of glassware.
- Performance and risibility are unaffected by water hardness. Contains water softeners that reduce formation and build-up of scale and scum in jet sprays and other surfaces of dishwashing machines.

IDEAL FOR

Restaurants, cafeterias, schools, hospitals, kitchens, hotels, motels, nursing homes and other food service establishments.

OUR PROMISE

SAFER & STRONGER™

Get the best of both worlds with Cleanslate. Our products are powerful enough to tackle your grimeiest surfaces – yet gentle enough for your health & our planet.

Biodegradable Surfactants

Fast Acting

Non-Flammable

Commercial Grade

PRODUCT SPECIFICATIONS

Physical Description	Free flowing granular powder
Color	White
Odor	Bland
pH (1%)	12.5 - 13.0
Density	75 lbs./ft ³
Storage Stability	1 year minimum

OPTIMAL APPLICATIONS

Glassware, steel cutlery, pots and pans, porcelain and plastics.
