Clifton

Alkaline Cleaner

Non-Foaming | Fragrance Free
Item #402905
5 Gallon

PRODUCT DESCRIPTION

WHAT I AM

Clifton is a heavy duty, non-foaming alkaline cleaner specifically formulated to remove or soften accumulated baked-on soils and grease from all kinds of cooking equipment including bakery pans, trays, broiler parts, oven racks and utensils. It's specifically formulated to be used on aluminum, zinc, and galvanized metals.

PRODUCT FEATURES

- Formulated with a combination of powerful low foaming emulsifiers, aluminum safe alkaline builders, conditioners and solvents, aqueous solutions of the product in water basins readily lifts heavily encrusted soils off food processing equipment surfaces without the need to scrub and scratch.
- As it's designed with especially low foaming surfactants it is totally compatible with CIP and circulation equipment, and pan and tray washing machines.
- Product is can be safely and effectively used on all food equipment, utensils and dishes – including aluminum, zinc and galvanized metals.
- A versatile product that can be used not only as a pan and tray soak wash, but also as a CIP cleaner, pressure and foam cleaner and a even a floor cleaner.

Note: Don't soak Teflon-coated pots, pans or skillets in product as solvents and emulsifiers might weaken Teflon's adhesion to surface.

OUR PROMISE

SAFER & STRONGER™

Get the best of both worlds with Cleanslate. Our products are powerful enough to tackle your grimeiest surfaces – yet gentle enough for your health & our planet.

Biodegradable Surfactants

Non-Flammable

Fast Acting
