## Richmond Produce Treatment

Fragrance Free

Richmond is a fruit and vegetable wash that is formulated to remove pesticides, chemicals, waxes, dirt, fingerprints and other contaminants from the surfaces of fruits and vegetables. Many contaminants such as pesticides and waxes are hydrophobic and insoluble in plain water. The combination of emulsifiers, organic acids and hydrogen peroxide in Richmond facilitate the removal, suspension and thorough cleaning of these and other contaminants from the surfaces of fresh fruits and vegetables making them 100% safe and edible.

### DIRECTIONS FOR USE

For firm fruits and vegetables Richmond can be sprayed on directly - allow several seconds dwell time and rub clean with absorbent towel or cloth, then rinse with clean water thoroughly. Alternatively follow the soak method described below. For soft produce such as lettuce, broccoli and grapes dilute Richmond with water in a sink or wash basin at a rate of about 2 oz. per gallon water; allow produce to soak for a few seconds, swirl the produce in the water well, then rinse.

### Hydrogen Peroxide Concentration (ppm)

Fresh solutions should be 150 ppm. If color indicates close to 50 ppm, then add more Richmond or make new solution.

Test Method	Immersion
Test Strip Technique	Immersion indicator pad in solution for one second and remove. Shake firmly to remove excess solution.
Results	Immediately compare color of the indicator pad to color chart on bottle

### WARNING

#### HAZARD STATEMENTS

May cause eye and skin irritation.

#### PRECAUTIONARY STATEMENTS

Wear protective gloves and eye protection.

Wash thoroughly after handling.

#### FIRST AID

**Eye Contact.** Check for and remove any contact lenses. Flush with large quantities of water, holding eyelids open for 15 minutes. Seek medical attention if symptoms persist. **Skin Contact.** Wash skin with copious amount of water. Seek medical attention if symptoms persist. **Inhalation.** Remove to fresh air. Seek medical attention if symptoms persist.

**Ingestion.** Do not induce vomiting. Drink copious amounts of water. Seek medical attention immediately.

### STORAGE

Store in original container protected from sunlight, in a well ventilated area, away from incompatible materials, and food and drink. Keep out of reach of children.

### SPILL/LEAK

Put on appropriate personal protective equipment. Move container from spill area. Dilute with water and mop up if water soluble or absorb with an inert dry material and place in an appropriate waste disposal container.

### DISPOSAL

Dispose of material in accordance with local, state and federal regulations.

### HAZARDOUS INGREDIENTS

Citric Acid (77-92-9), Hydrogen Peroxide (7722-84-1)  
Sodium Dodecylsulfate (151-21-3)
