Clanton

Solid Laundry Detergent

Oxygen Bleach

Item #4131

PRODUCT DESCRIPTION

WHAT I AM

Clanton is a highly concentrated built solid laundry detergent with oxygen bleach. It combines a fully balanced detergent with a non-caustic alkali break and an oxygen bleach to deliver safe and superior cleaning plus stain removal for personal clothing and mixed loads in institutional and on-premise laundries. As a solid, it is easy to handle, economical, and occupies very little space.

PRODUCT FEATURES

- Fully balanced formula including high concentration of emulsifiers with high levels of silicated alkalis plus coated granular percarbonate results in a superior one-shot product for excellent cleaning and stain removal of mixtures of oily and particulate soils common in personal clothing and mixed loads treated in institutional and on-premise laundries.
- Economical and efficient – does the job of three products: a laundry detergent, an alkali builder, and an oxygen bleach all in one compact jar.
- Great for locations where space is a premium; one dispenser delivering Clanton delivers the equivalent of 3 products with 3 dispensers!
- Water conditioners built into the formula make it equally effective at high levels of water hardness as in soft water
- Special soil suspending agents present prevent re-deposition of soils, hence graying and/or dulling of fabric is minimized. With the additional presence of optical brighteners, the clothing comes out of the washer/dryer sharp and bright looking.

OUR PROMISE

SAFER & STRONGER™

Get the best of both worlds with Cleanslate.

Our products are powerful enough to tackle your grimeiest surfaces – yet gentle enough for your health & our planet.
