# Lenox

## Built Detergent Powder

Fragrance Free

Item #481850

### PRODUCT DESCRIPTION

## WHAT I AM

Lenox is a heavy duty detergent powder. It combines with alkalinity to achieve superior performance without the need for additional alkalinity builders. Lenox is hard water tolerant. It is also highly effective at removing grease oil, and is safe for use on all fabric types. Lenox is compatible for use with bleach.

### PRODUCT FEATURES

- A combination of high concentration of emulsions with high levels of alkalinity make it a great one shot product for accelerated cleaning mixtures of oily and particulate soils common in personal clothing and mixed loads treated in institutional laundries. It is also very affective for personal clothing in on premise laundries and ideally suited for hospitality linen in hotels.
- Very economical since it does the job of two products in one, a laundry detergent and a laundry builder, and saves space and cost by not requiring an additional dispenser for an alkali builder.
- Water conditions built into the formula make it equally effective at high levels of water hardness as in soft water.
- Special soil suspending agents present prevent re-deposition of soils, hence graying and/or dulling of fabric is minimized. With the additional presence of optical brighteners, the clothing comes out of the washer/dryer sharp and bright looking.

### OUR PROMISE

## SAFER & STRONGER™

Get the best of both worlds with Cleanslate. Our products are powerful enough to tackle your grimeiest surfaces – yet gentle enough for your health & our planet.

Biodegradable Surfactants

Commercial Grade

Non-Flammable

### PRODUCT SPECIFICATIONS

Physical Description	Granular Powder
Color	Yellow
Flashpoint	None
Odor	Mild Lemon
pH (1%)	>12
Viscosity	Not available
Weight per Gallon	Not available
Storage Stability	1 year minimum
D.O.T. Shipping Label	None

### OPTIMAL APPLICATIONS

Commercial laundries, hotels, motels, health care facilities, nursing homes and restaurants.v
