Provo

One- Step Disinfectant

EPA REG. NO. 6836-366-84179

Item #4468

PRODUCT DESCRIPTION

Provo is a one-step disinfectant cleaner formulated to clean, disinfect, and deodorize in a single labor-saving step on hard, non-porous surfaces. When used as directed, it is effective against a broad spectrum of bacteria and viruses including SARS-CoV-2, the virus that causes COVID-19. Provo is designed for use on hard, non-porous, washable surfaces in healthcare, institutional, and industrial environments.

USE DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Please refer to label for usage directions. Dilute Provo according to intended use:

- Disinfection: 2 oz/gal (1:64 dilution)
- Virucidal (non-animal): 2 oz/gal (1:64 dilution)

Rinse all surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. Do not use on utensils, glassware and dishes.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from the room or carefully protected.

Apply use-solution to hard, non-porous, non-food contact surfaces, thoroughly wetting surfaces with a cloth, mop, sponge, sprayer or by immersion. Treated surfaces must remain visibly wet for the contact time listed on the label. Wipe dry with a cloth, sponge or mop or allow to air dry. For visibly soiled areas, a preliminary cleaning is required.

SAFER & STRONGER™

Kills a broad spectrum of bacteria and viruses, including SARS-CoV-2 in just one minute. EPA-registered hospital-grade disinfectant with one-step cleaning and deodorizing action.
